September 30, 2022 | 8:30 a.m.-12:30 p.m.
Virtual, with Online Pre- and Post-Work

COURSE DESCRIPTION

This course examines how to provide equitable assessments and interventions for transgender individuals. Many providers are uncertain on how to provide inclusive and ethical services to individuals with gender dysphoria. This training will explore the trans experience and transition journey, including family and community perspectives. Participants will acquire a better understanding of how to work with transgender individuals and become a more inclusive provider by utilizing a combination of interactive dialogue, focused discussion, applied-practice exercises and small group work.

- Continuing Education: 0.6 CEUs/6 CEHs.
- Increase understanding of the transgender experience, including terminology and gender identity spectrum
- Examine challenges within clinical settings when providing care to transgender individuals to address diagnostic clarification, safety, and stabilization
- Identify the community and family role within providing care, resources, and collaboration
